

Frequently Asked Questions

Shaklee 180™

Q. What is the Shaklee 180™ Weight-Loss Program and why is it different from other weight-management systems and diets?

A. Shaklee 180™ is clinically tested weight-loss products† and a program that takes you from your “before” to your “after” and beyond—the 180™ refers to 90 days to lose the weight and 90 days to learn how to keep it off. Along with the great products you’ll find a comprehensive and holistic support system full of tools, education and support to help you stay motivated and reach your goals.

The secret to Shaklee 180™ products is leucine—an amino acid that signals your body to retain muscle, so you lose the right kind of weight. On conventional diets you lose muscle along with the fat. Shaklee 180™ is designed so that nearly every pound you shed is fat.† That’s right, almost all fat. Since your metabolism is powered by your muscles mass, when you retain muscle your metabolism stays stronger which can help you keep off that hard fought weight loss.

The Shaklee 180™ Program and Special Diet Needs

Q. What Shaklee 180™ products are kosher certified?

A. The following Shaklee 180™ products are certified as Star K: the Shaklee 180™ Soy Energizing Smoothie Mix (all four flavors), the Shaklee 180™ Blueberry & Almond Crisp Meal-in-a-Bar, the Shaklee 180™ Snack Bars (two flavors), the Shaklee 180™ Metabolic Boost*™, and the Shaklee 180™ Energizing Tea (both flavors).

The Shaklee 180™ Whey Protein Blend Energizing Smoothie Mix, Peanut Butter & Chocolate Chip Meal-in-a-Bar, Shaklee Snack Crisps (two flavors), and Shaklee 180™ Chocolate Chocolate Snack Bar are certified as kosher dairy.

Q. Are the Shaklee 180™ products gluten-free?

A. Shaklee has tested all Shaklee 180 products for the presence of gluten. All products are labeled gluten free.

Q. Can I use the Shaklee 180™ Weight-Loss Program if I am pregnant?

A. Pregnant women can use the Shaklee 180™ Energizing Smoothies, bars and snacks as part of a healthy diet. Additional calories, protein and fiber are essential for a healthy pregnancy and a great way to obtain that additional 300 calories per day is by having a Shaklee 180™ Energizing Smoothie. Pregnant women would not be following a weight loss program, nor do we suggest that Metabolic Boost* be used. Discuss caffeine intake with your obstetrician; if they are ok with a cup or two of caffeinated beverages per day, you can use our Energizing Tea as one serving.

Q. Can I use the Shaklee 180™ Weight-Loss Program if I am nursing?

A. You can follow the Shaklee 180™ Weight-Loss Program while nursing your baby, but make sure you’re eating enough calories and drinking plenty of fluids so breast milk production isn’t compromised. We recommend starting with the 1,800 calorie meal plan.

We also recommend that you discuss the use of the Energizing Tea with your doctor, as it contains naturally occurring caffeine in the amount found in a half cup of coffee or black tea.

Replace the Metabolic Boost* supplement with Vita Lea® Iron Formula, because Metabolic Boost* contains the herbal extract evodia, for which the safety of use in nursing women

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

†The weight loss portion of the Shaklee 180 Program was tested in a preliminary 12-week clinical study and skin fold caliper measurements were used to estimate lean body mass and fat mass. Meal-in-a-Bars were not part of that study

Shaklee 180™

has not been studied. If at any time you notice a change in your breast milk production, you may want to check your calorie and fluid intake or consider discontinuing the program until you've finished nursing your baby.

Q. I am vegetarian/vegan, can I be on the Shaklee 180™ Weight-Loss Program?

A. Lacto-ovo vegetarians can use the Shaklee 180™ Weight-Loss Program. The Energizing Smoothies can be mixed with nonfat milk or low-fat soy milk. Shaklee 180™ meal plans designed for lacto-ovo vegetarians are available on the myshaklee180.com website. For strict vegans, please note that some of the Shaklee 180™ Energizing Smoothies and Bars contain dairy ingredients.

Q. Can children use the Shaklee 180™ Weight-Loss Program?

A. This program is not designed for children under the age of 12. However, overweight teenagers (ages 13 to 18) can follow the Shaklee 180™ Weight-Loss program, supervised by their parents to assure they are following the program as it is designed. We would also urge that the teen's physician see them once or twice in the course of their weight loss process.

Q. Can a diabetic use the Shaklee 180™ Weight-Loss Program?

A. All diabetics should be under the care of a medical doctor and should discuss any weight-loss program with their doctor. If you have Type 2 diabetes, calorie control and weight loss tend to be critical to the prevention of potential long-term sequelae. Your doctor should evaluate you over time as you lose weight as to whether your medications need adjustment. The Shaklee 180™ Weight-Loss Program has been well designed and should be appropriate for most people with diabetes. Simply follow the calorie level your doctor has told you to Shaklee 180™ Energizing Smoothies, Meal-in-a-Bars, and Snack Bars have undergone glycemic index testing and meet the definition of "low glycemic." We also have attempted to guide you towards choosing foods in your meal plan with a low to moderate glycemic index.

Q. I am allergic to soy. Can I be on the Shaklee 180™ Weight-Loss Program?

A. The Shaklee 180™ Weight-Loss Program offers a vanilla flavored, whey protein blend version of the Shaklee 180™ Energizing Smoothie. Use two Shaklee 180™ whey protein blend Energizing Smoothies per day as part of your Shaklee 180™ meal plan. The only other recommended modification to the plan is making appropriate food choices to replace the Shaklee Snack Bar which is also a soy protein based product.

Here are some non-soy alternatives to eating a Snack Bar:

- 1 cup nonfat yogurt, or
- ½ cup of nonfat cottage cheese with 1 cup raw vegetables, or
- 1 oz. low-fat cheese with 5 small whole wheat crackers

About Shaklee 180™ Energizing Smoothies and Meal-in-a-Bars

Q. What are the key features of the Shaklee 180™ Energizing Smoothie?

A. Shaklee 180™ Energizing Smoothies provide:

- 24 grams of Leucine-enhanced protein, when prepared as directed, to help retain your muscle and 6 grams of fiber to help keep you feeling full.*
- Non-GMO soy protein
- Low glycemic
- No artificial flavors, sweeteners, or preservatives added
- Gluten free
- Kosher certified

Q. What is Leucine and why is it an important ingredient?

A. Leucine is an essential amino acid that signals your muscles to stimulate protein synthesis. It helps your body preserve muscle mass while you lose weight. Keeping muscle helps keep your metabolism strong so you are less likely to regain the weight you lose.

Shaklee 180™

Q. What is the Glycemic Index (GI) of the Shaklee 180™ Energizing Smoothies and Bars?

A. The Glycemic Index is a measure used to assess the rate at which carbohydrates in the foods you eat raise blood sugar. Foods with a GI value of less than 55 are considered to be “low glycemic.” All Shaklee 180™ products are low glycemic.

Q. Can I mix my Shaklee 180™ Energizing Smoothie with water?

A. We recommend nonfat milk or low-fat soy milk for the best nutritional profile and to provide you with the full amount of protein and leucine you need in the Shaklee 180™ Weight-Loss Program. If desired, you may mix the Shaklee 180™ Energizing Smoothie with water, using THREE scoops of powder in eight ounces of water. This provides about the same amount of protein and calories as when prepared with nonfat milk or low-fat soy milk.

Q. Can I use the two Energizing Smoothies for any two meals?

A. Yes. You may use the Energizing Smoothies as a meal replacement for two meals per day, breakfast, lunch, or dinner and have one healthy meal per day as well.

Q. How does the Shaklee 180™ Meal-in-a-Bar fit into the Shaklee 180™ Weight-Loss Program?

A. The Shaklee 180™ Meal-in-a-Bar is designed to be used as a meal-replacement alternative to the Shaklee 180™ Energizing Smoothie Mix. If you are looking for an on-the-go alternative to the shakes, feel free to substitute one Energizing Smoothie a day with a Shaklee 180™ Meal-in-a-Bar.

Q. Can I use a Shaklee 180™ Meal-in-a-Bar as a snack?

A. You may use a half serving of a Shaklee 180™ Meal-in-a-Bar as a snack.

About Shaklee 180™ Energizing Tea

Q. What is the purpose of Shaklee 180™ Energizing Tea?

A. It is not uncommon for all of us to experience occasional dips in energy level, especially when you are reducing your calories to lose weight. Energizing Tea is a great alternative to high-calorie coffee drinks or sodas. Enjoy the tea hot or cold—it will help naturally boost your energy level without sabotaging your success. The plain Energy Tea has no calories. The Pomegranate flavored version has 10 calories. Plus, the T-Lift® blend in Shaklee 180™ Energizing Tea provides catechins, which have potent antioxidant properties.

Q. How many servings per day of Shaklee 180™ Energizing Tea may I have?

A. Each tea stick delivers 70 mgs of caffeine, which is about 2/3 the amount found in a typical cup of brewed coffee—so you can consume a similar amount of servings of Shaklee Energizing Tea as you would coffee or tea. However, if you are sensitive to caffeine, you may want to try a half serving of the tea and see how you do with it. If you have been told to eliminate caffeine, do not take the tea.

Q. What is white tea extract?

A. White tea is green or black tea that is harvested before the leaves are fully open (baby tea leaves). At that time, the tea leaf buds are still covered with fine white hair, which provides the name “white tea”. The tea leaf buds are steamed to prevent oxidation then dried. It contains more antioxidants than regular green tea.

Q. What is matcha green tea powder?

A. Matcha green tea is a special form of green tea and a traditional ceremonial tea in Japan. It is produced from the finest fresh leaves that are handpicked at the earliest harvest

Frequently Asked Questions

Shaklee 180™

and prepared using the whole powder, rather than steeping and discarding the tea leaves so as to get the full benefit of all of the nutrients in the leaves, including fiber, minerals, and antioxidants.

Q. What is rooibos red tea?

A. Red tea is made from the herb rooibos, a native plant from South Africa. It provides antioxidants, including flavonoids such as aspalathin, a unique polyphenolic compound.

About Shaklee 180™ Snacks

Q. What can I substitute for Shaklee 180™ Snack Bars?

A. We strongly suggest the Shaklee 180™ Snack Bar as your snack. With 120-130 calories, it provides 10 grams of protein and three grams of fiber. It's a great way to add protein to your day and to get some extra leucine to help preserve lean muscle. If you can't eat the bar, here are some alternatives:

- 1 cup nonfat yogurt, or
- ½ cup of nonfat cottage cheese with 1 cup raw vegetables, or
- 1 oz. low-fat cheese with 5 small whole wheat crackers

Q. How do I use Shaklee 180™ Snack Crisps in the Shaklee 180™ Weight-Loss Program?

A. Shaklee 180™ Snack Crisps provide 100 calories and 6 grams of protein per serving. They are a great, savory tasting alternative to consuming a Shaklee 180™ Snack Bar in the context of the Shaklee 180™ meal plan guidelines.

Q. Can my family consume Shaklee 180™ Snack Crisps?

A. Yes. Shaklee 180™ Snack Crisps are a healthy snack option for all members of your family, including children age 2 and older.

Q. Can I consume the Shaklee 180™ Snack Crisps if I'm breast feeding?

A. Yes. Shaklee 180™ Snack Crisps are safe to consume if you are breast feeding.

Q. Can people with diabetes consume Shaklee 180™ Snack Crisps?

A. Yes. However each serving of Shaklee 180™ Snack Crisps contains 13 grams of carbohydrates. If you use diabetic exchanges, a serving of Shaklee 180™ Snack Crisps is equivalent to one starch/bread exchange plus 1 lean protein/meat. We also highly suggest consuming the snack crisps in the context of our Shaklee 180™ meal plan guidelines and that you monitor your blood sugar as recommended by your doctor.

About Shaklee 180™ Metabolic Boost*

Q. Should I take Shaklee 180™ Metabolic Boost* with food or an Energizing Smoothie?

A. Yes. Ideally you should take one tablet along with each of your two Energizing Smoothies a day and one with your prepared meal for a total of three tablets a day.

Q. Can I take all three Metabolic Boost* tablets at the same time?

A. For best results we recommend you take one supplement three times daily. One with each Energizing Smoothie and one with your one meal of the day.

Q. What is evodia extract?

A. Evodia is a natural herbal extract with history of use in traditional Chinese medicine and has been shown in a number of laboratory studies to have anti-obesity potential.

Shaklee 180™

Q. What is purple corn extract?

A. Purple corn, also known as blue corn, is a natural herbal extract that has been shown in a number of laboratory studies to have weight-loss potential. It is also a source of anthocyanins, a type of flavonoid known for its powerful antioxidant properties.

Q. What is EGCG?

A. EGCG (*epigallocatechin gallate*) is a component of green tea. Green tea containing EGCG has been shown in clinical studies to increase metabolic rate, increase the calories burned over a 24-hour period, and increase the percentage of calories burned from fat. A clinical study has been conducted using 270 mg of EGCG, the same amount that Shaklee provides in the Shaklee 180™ Metabolic Boost*.

Q. Can I continue to take other Shaklee supplements while on the Shaklee 180™ Program?

A. It is fine to continue taking other targeted solution products such as Shaklee OmegaGuard®, Advanced Joint Health Complex*, etc. However, because the ingredients in Glucose Regulation Complex* (GRC) are included in the Metabolic Boost*, we do not recommend using GRC while on the Shaklee 180™ Weight-Loss Program.

Caffeine in Shaklee 180™ Products

Q. How much caffeine is in the Shaklee 180™ Chocolate Energizing Smoothie?

A. The caffeine content of the Shaklee 180™ Chocolate Energizing Smoothie is less than 1 mg per serving.

Q. How much caffeine is in the Shaklee 180™ Chocolate Chocolate Snack Bar?

A. The caffeine content in one Shaklee 180™ Chocolate Chocolate Snack Bar is approximately 10 mg.

Q. How much caffeine is in the Shaklee 180™ Metabolic Boost*?

A. The Metabolic Boost* contains green tea extract which contains a low level of caffeine. A full serving of the Metabolic Boost* will provide less than 10 mg of caffeine.

Q. How much caffeine is in the Shaklee 180™ Energy Tea?

A. The tea contains approximately 70 mg of caffeine, about the same as about ½ cup of coffee.

Q. Is there caffeine in the Café Latte Shaklee 180™ Energizing Smoothie?

A. The Shaklee 180™ Café Latte Energizing Smoothie contains a trace amount of caffeine from the natural flavors used. It has less than 1 mg of caffeine per serving.
